---

**05** Technique

---

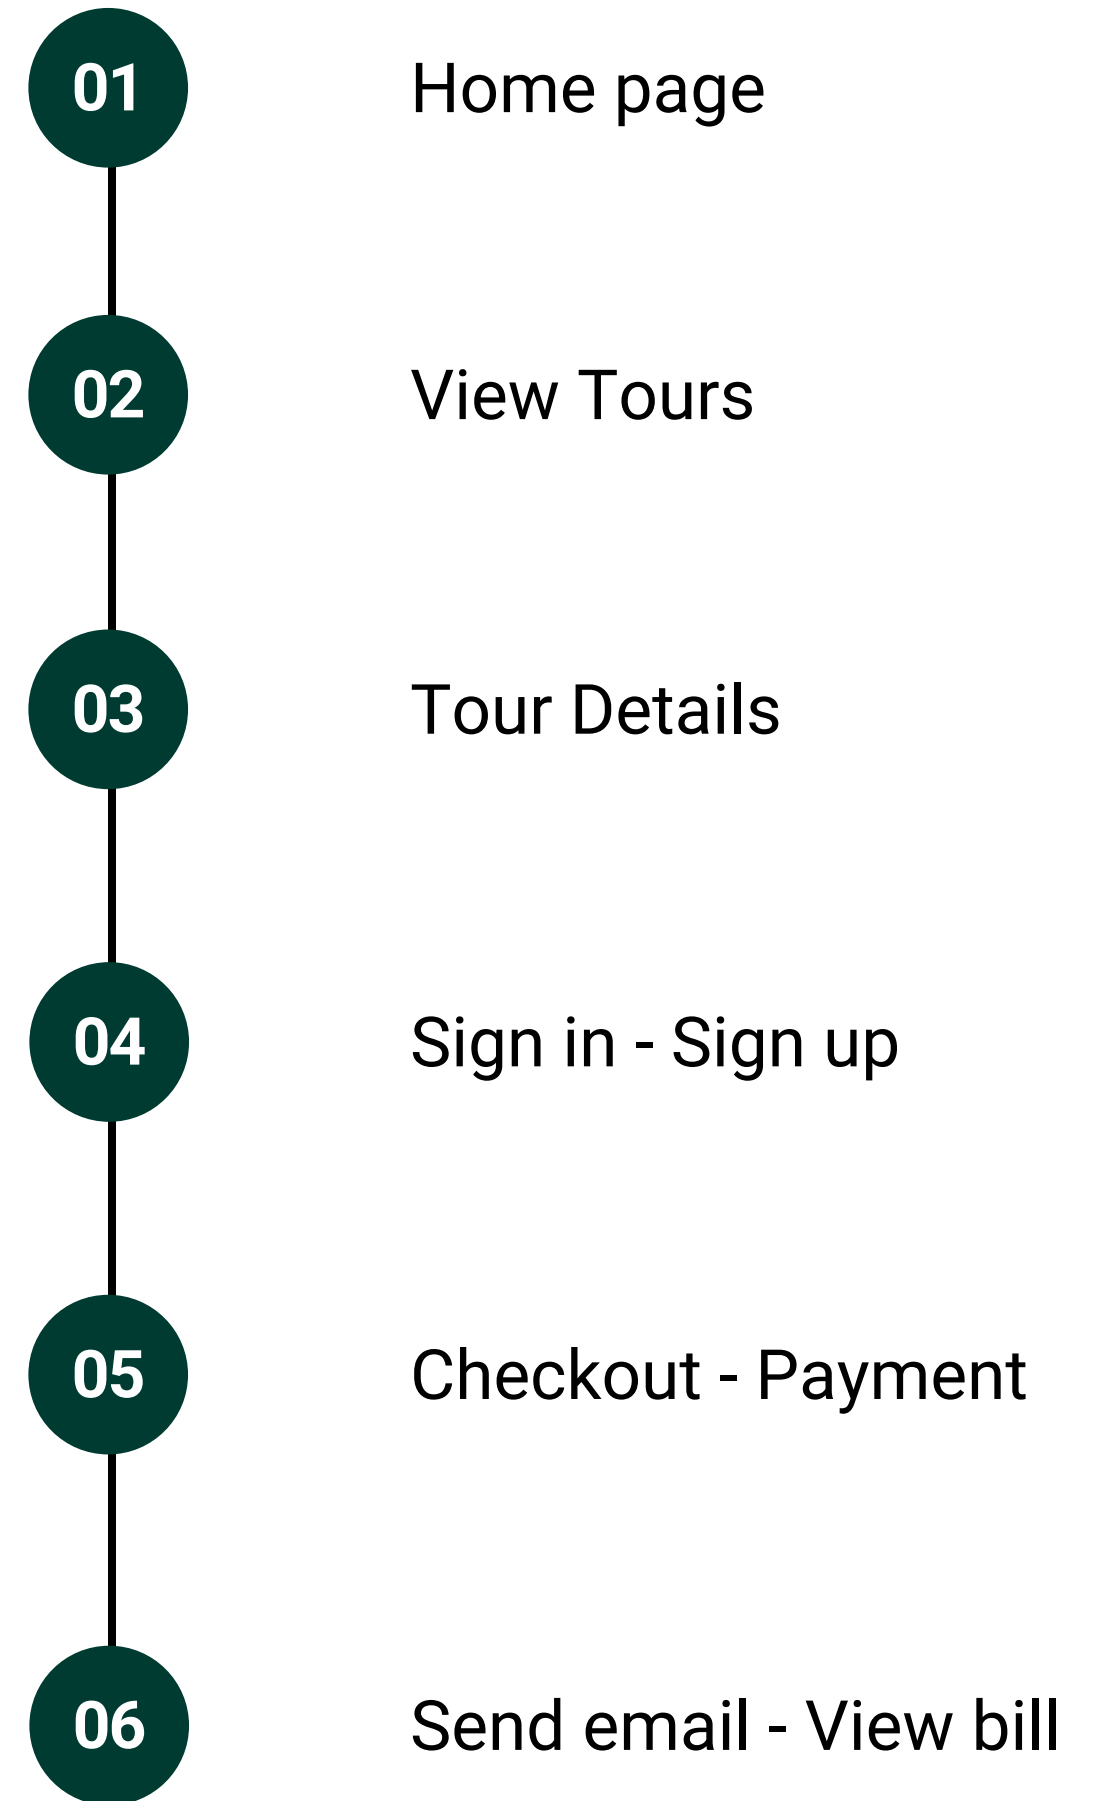

**THIS IS OUR MAIN MISSION.**

**Develop a booking travel website to give users experiences about tourist attractions in the central region of Vietnam.**

# Website Function

# Design Analysis

## Style

- **Grid design** : create layouts for complex responsive web design
  - **Full-page headers** : setup involves adding key text or call-to-action (CTA) buttons to the left of the header with eye-catching images on the right.
  - **Dark / light mode**
- 

## Images

Travel images

---

## Buttons

Large, using text and icons

## Colors

- **Green** : close to nature; vitality, fresh growth,
  - **White**
- 

## Font family

Using **san serif** font to illustrate the modern of the website, which is suitable for travelers - young ages

---

## Animation

Smooth animation

# OUR TECHNIQUE

Laravel  
MySQL  
PHP

HTML - CSS  
JavaScript  
Bootstrap

# Timeline

	Homepage - Login - Register	View Tours - Tour Details Checkout - Payment	Admin Management	Review - Testing
